

Free STEM Professional Development Workshop Connect Students to the Great Lakes

**Special Full Day Workshop for After-School Program
Providers and Staff!**

**Friday, May 24, 2013
9am—3:30pm**

We will begin the day with a 2-hour Buffalo River and Harbor cruise on the motor vessel *Julia May* to orient you on Buffalo River environmental topics, history and geography. After a break for lunch, the workshop will continue indoors at the Old First Ward Community Center for training in standards-based water education curricula that you can use with students in after-school settings.

Limited to 30 participants. Pre-registration required by May 1, 2013.

Board the *Julia May* promptly at 9am at **River Fest Park** (Ohio Street—Old First Ward). Parking is available on the street or at the park. Afternoon session will be held at the Old First Ward Community Center, located at 62 Republic Street, Buffalo, NY 14204.

Free Materials

Each participant will receive Project WILD Aquatic and the new Project WET 2.0 activity guides. Filled with more than 100 lesson plans, these national, field-tested guides are only available by attending a workshop. Most activities correlated to Common Core Standards.

**For questions call Kate Hilliman (716) 796-8393 (kate@buoe.org)
To register call Brittany Dileo (716) 683-5959 (bgdileo@gw.dec.state.ny.us)**
